

Affordability meets possibility.

Franklin Access' ingenious RT410 alternative to more expensive routers for affordable, no-hassle Wi-Fi wherever there's coverage.

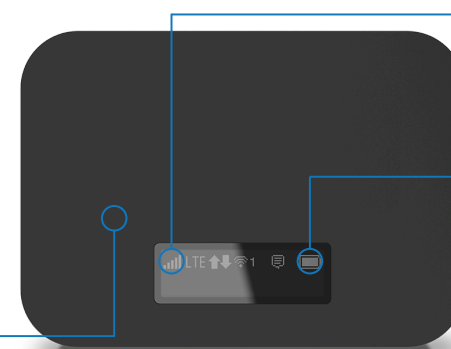

From providing connectivity to environments such as shopping mall kiosks, vending machines, to field service and patrol vehicles, the RT410 serves as a new way to keep businesses connected anytime, anywhere - all backed by T-Mobile's powerful nationwide data

- While traditional routers can cost upwards of \$200 or more, the RT410 offers **a compelling option at significant savings.**
- Users have the option to utilize the RT410's **internal battery, or use a USB tethered connection.**
- Thanks to its IP Passthrough capabilities, the RT410 seamlessly delivers direct and stable internet access to your devices for **ultimate flexibility, security, and performance even in advanced business setups.**
