

Worker Safety Solution for Healthcare Professionals

In a fast-paced, high-stakes environment like healthcare, **the safety of your workforce is non-negotiable**. From home health nurses to ER professionals, medical staff often find themselves navigating unpredictable and sometimes dangerous situations. Everbridge is designed to protect frontline workers, ensure operational continuity, and **provide immediate access to help when it matters most**.

- **Personal Safety Device (PSD):** A game-changer for home health and frontline workers, the Everbridge PSD is a wearable cellular-enabled safety device and works on smartphones to provide instant access to emergency support.
- **Mass Notifications:** Stay one step ahead of emergencies and alert your healthcare team(s) of critical and non-critical events, informing staff of announcements to groups and individuals in their environment.
- **Efficient Response Workflows:** In healthcare, seconds count. Everbridge automates critical workflows to ensure immediate action, helping maintain patient care and operational stability during crisis events.
- **Safe Corridor & SnapComms:** Ensures safety while in transit providing periodic check-ins to ensure if anything happens your security group will know to respond. Communicate effectively between staff, doctors, and administrators so that sensitive information can be transmitted securely in a HIPAA compliant messaging using smartphones and tablets.

Everbridge empowers healthcare providers to face uncertainty with confidence. From powerful communication tools to the cutting-edge Personal Safety Device, and smartphone mobile app. Everbridge is designed to **protect your people, preserve your operations, and promote peace of mind**.
